Figures 275 through 317 represent the technology-related expenditures for public library systems during the 2006 fiscal year and the expected expenses for the 2007 fiscal year by responding state. For most states, the highest average was allocated to staff in technology support positions during the 2006 fiscal year, followed by licensed resources and telecommunications services. These three expenditure categories appeared consistently across the states as the top three technology-related expenditures, though there were differences by individual state. The same pattern held true for Fiscal Year 2007.

The highest average amount spent for a single technology-related category during the 2006 fiscal year was $525,819, which was applied to licensed resources in Maryland. For the 2007 fiscal year, the highest average was reported by Florida public library systems, which estimated an average of $654,692 being allocated to staff only hardware.

Looking at the 2006 and 2007 fiscal year data, a majority of states (79 percent) reported that the amount of money spent on licensed resources for public library systems would increase for the 2007 fiscal year, 72 percent of states indicated that more would be spent on staff in technology support positions during the 2007 fiscal year, and 72 percent of states reported that there would be more spent on staff providing technology-related training to library staff or public during the 2007 fiscal year. In comparison, 60.5 percent of states indicated that they would spend less on staff only hardware during the 2007 fiscal year, 55.8 percent reported they would spend less on public use computing hardware, and approximately 55.8 percent of states reported they would spend less on instructional technology during the next fiscal year. Only South Carolina estimated higher average increases in every category between the 2006 and 2007 fiscal years.

Figure 275: Fiscal Year 2006 and 2007 Technology Related Expenditures for Alabama's Public Library System.

	Fiscal Year 2006		Fiscal Year 2007	
	Alabama	National	Alabama	National
Staff only hardware	$2,166 (n=125)	$9,636 (n=3,556)	$4,687 (n=111)	$12,362 (n=3,043)
Staff only software	$475 (n=122)	$5,381 (n=3,308)	$1,142 (n=111)	$6,802 (n=3,024)
