

Project Title: Feasibility Study of Public Library Data and Related Statistics (Baltimore)
Investigator(s): Charles R. McClure
Funding Agency: Baltimore County Public Library
Award Dates: May 2003 – April 2004
Award Amount: \$5,000

The Information Institute analyzed the Baltimore County Public Library's (BCPL) outlet level data to determine what data could be incorporated into the Geographic Information System (GIS) database project. The project incorporated BCPL's data into the database and produced a Beta version of the GIS database that included base maps, selected Census data by tracts for the BCPL service area, and BCPL outlet data.
